IFIT Dataset Cost-Recovery Licence v1.0

1. Parties and acceptance

1.1 This Licence is between the Institute for Integrated Transitions ("IFIT" or "Licensor"), a non-profit organisation based in Barcelona, Spain, and the person or organisation that accepts it ("Licensee" or "you").

1.2 This Licence applies to any dataset that IFIT makes available under it. Each dataset's listing page names this Licence and sets its fee.

1.3 You accept this Licence by clicking "I agree", accessing or using the Dataset. If you access it on behalf of an organisation, you confirm by clicking "I agree" that you have authority to bind this organisation. If you do not agree, do not use the Dataset.

1.4 Mission. IFIT works to help fragile and conflict-affected states achieve more inclusive negotiations and sustainable transitions out of war, crisis or authoritarianism. IFIT shares its datasets to support that mission.

1.5 Cost recovery. Each Dataset is offered on a cost-recovery basis. Fees collected contribute solely to offsetting the costs of producing, curating and maintaining the Dataset, and do not reflect or include any for-profit purpose or function.

2. Definitions

- **Authorised Users:** individual licensees, or employees, students and contractors of a licensed organisation using the Dataset only on behalf of this organisation, and only for purposes related to this organisation.
- **Dataset:** any data, dataset or data compilation that IFIT licenses under this Licence, as described on its listing page.
- **Derived Data:** data you create by combining, changing, analysing or otherwise processing the Dataset, which cannot reasonably be used to rebuild the Dataset.
- **Trained Models and Outputs:** AI or machine-learning models, model weights, systems and their outputs that you create using the Dataset, which do not reveal the Dataset or allow it to be rebuilt.

3. Licence grant

Subject to this Licence and payment of the fee, IFIT grants you and your Authorised Users a non-exclusive, worldwide, perpetual, non-transferable and non-sublicensable licence to:

- access, download, copy, store and analyse the Dataset;
- use the Dataset for research, teaching, policy work, internal and commercial purposes;
- train, fine-tune, test and evaluate AI and machine-learning models using the Dataset;
- create, publish and use Derived Data and Trained Models and Outputs, including for commercial purposes, as long as they do not reveal or reproduce the Dataset;
- publish insubstantial extracts (**no more than 5% of the Dataset**) in your work, and share them with journals, reviewers and replication archives where needed for peer review or reproducibility.

4. Ownership

4.1 The Dataset and all intellectual property rights in it are and remain the property of IFIT (and its licensors, where relevant). This Licence does not transfer ownership of the Dataset to you.

4.2 You own the Derived Data and Trained Models and Outputs you create, subject to IFIT's rights in the Dataset and the restrictions in this Licence.

5. Restrictions

You must not, and must not allow anyone else to:

1. share, sell, sublicense, publish or otherwise make the Dataset available to anyone other than your Authorised Users, in whole or in part, except insubstantial extracts allowed under clause 3
2. create a dataset or product that contains or substitutes for the Dataset;
3. reverse engineer, extract or rebuild the Dataset, including from Derived Data or Trained Models and Outputs;
4. train models whose main purpose is to reproduce the Dataset;
5. try to identify, or re-identify, any person or community in the Dataset;
6. use the Dataset to harm, surveil, target or discriminate against people or communities;
7. use the Dataset to undermine peace, democracy or human rights;
8. use the Dataset in any way that breaks the law or the rights of others;
9. suggest that IFIT endorses you or your work, products or conclusions.

Anyone else who wants to use the Dataset must obtain it under this Licence.

6. Attribution

When you publish or present work that uses the Dataset, Derived Data or Trained Models and Outputs, credit IFIT as follows:

> *Institute for Integrated Transitions (IFIT), [title of the dataset], [year], Mozilla Data Collective, [link to the dataset].*

You must not remove or change any copyright, attribution or other notices in the Dataset.

7. Fees

The fee for each Dataset is set on its Mozilla Data Collective listing page and is due when you purchase or download it. Fees are non-cancellable and non-refundable, unless this Licence or the law requires otherwise. The fee covers the version of the Dataset you obtain; later versions may be offered for a separate fee. For refund questions, contact IFIT at info@ifit-transitions.org.

8. Data protection

If the Dataset contains personal data, you are responsible for processing it, including under the EU General Data Protection Regulation (GDPR). You must process it lawfully, keep it secure and use it only as this Licence allows.

9. Disclaimer and liability

9.1 The Dataset is provided "as is" and "as available", and you use it at your own risk. IFIT gives no warranty that it is accurate, complete, error-free or fit for any purpose.

9.2 To the extent the law allows, IFIT is not liable for any indirect or consequential loss arising from your use of the Dataset. IFIT's total liability is limited to the fees you paid for the Dataset. Nothing in this Licence limits liability for wilful misconduct or gross negligence, or any liability that cannot be limited by law.

9.3 You are responsible for and will indemnify IFIT against any claim made against IFIT by others because of your use of the Dataset or your breach of this Licence.

10. Term and termination

10.1 This Licence starts when you accept it and continues indefinitely unless it is ended under clause 10.2.

10.2 If you breach this Licence, IFIT may end it immediately by written notice or suspend your access to the Dataset.

10.3 When this Licence ends, you must stop using the Dataset, delete all copies and, if IFIT asks, confirm that you have done so. You may keep Derived Data and Trained Models and Outputs created before then, as long as they do not reveal the Dataset.

10.4 Clauses 4, 5, 6, 8, 9, 10.3 and 11 continue to apply after this Licence ends.

11. General

11.1 Governing law. This Licence is governed by the laws of Spain. The courts of Barcelona have exclusive jurisdiction over any dispute. This does not affect any mandatory rights you have as a consumer under the law of the country where you live.

11.2 Changes. IFIT may publish new versions of this Licence. The version you accepted when you obtained the Dataset continues to apply to your copy.

11.3 Entire agreement. This Licence and the Dataset's listing page form the whole agreement between you and IFIT. If they conflict, this Licence prevails over the Dataset’s listing page. You may not transfer this Licence without IFIT's written consent.

11.4 Severability. If any part of this Licence is found invalid, the rest remains in force.
